Foundation Programme**

Hear from our Alumna

Never stop learning, always aim high

"I am now currently reading Law at the University of Liverpool.

I can confidently say that the subjects I chose have provided me with a strong, foundation for Law Studies. Not only did I find learning these subjects very interesting, they also helped me develop strong analytical skills. This has definitely come in handy while studying university-level law.

As for choosing a twinning programme, it was definitely a bit nerve-racking for me to complete only one year in Malaysia before going overseas. Life in university tends to be pretty fast-paced and requires alot of independence. But looking back on it now, I would not have done it any other way. It has been an incredible learning experience."

Aleena Jeremiah

Why study the ISP foundation programme in partnership with NCUK?

Fast Track Programme

A 9-month foundation pathway in Science, Engineering, Business or Humanities which will allow your child to enter and complete university a year ahead of their peers. All courses can be undertaken at Tenby Schools Setia Eco Park (for the Science and Engineering Foundation) or at Asia Pacific Schools (for the Business and Humanities Foundation).

Acceptance

Our proven academic track record allows ISP to take your predicted grades for SPM in order to make a decision on your entry to the Foundation NCUK programme without the need to wait for your results in June.

A Guaranteed University Place

When a student passes the foundation programme they will be eligible to enter a host of leading University Brands worldwide (UK, Ireland, Australia, New Zealand, Canada, USA) and in Malaysia.

Outstanding Results

Our proven track record in academic excellence with our qualified teachers means each student will receive the best possible preparation for their degree and future career. Our university career advisors will ensure each student is placed in the best university for their future.

Tenby Schools 2019 SPM Highlights

Ipoh

- A+ to C 85.3%
- Pass 100%

Setia Eco Park

- A+ to C 90.5%
- Pass 96.3%

Penang

- A+ to C 85.2%
- Pass 95.7%

Setia Eco Gardens

- A+ to C 69.9%
- Pass 85.9%

Asia Pacific Schools 2019 SPM Highlights

- A+ to C 89%
- Pass 99%

We offer all the benefits of a university experience with the reassurance and safety of a school campus. This gives parents peace of mind and provides the students the support they need to achieve the best results.

Career Information Advice and Guidance (CIAG)

The International Schools Partnership is a Global leader in CIAG. Our programme is designed by careers and industry professionals and delivered by qualified Career and University Advisors, underpinned by technology which ensures each student receives not only the best education but best in breed start to their professional career.

Extra-Curricular Activities

Unlike other foundation programmes the ISP foundation considers the whole student. To enhance both University applications and enable our students to pursue their varied outside interests, all our Foundation students can pursue hundreds of ECAs offered at our school sites; arts, music, performance, sports all contribute to our students being well rounded individuals.

English Qualifications

All students undertaking the ISP foundation are exempted from IELTS, TOFEL and other required English examinations prior to their degree studies. This saves money (no need to pay for a test or preparation) or time (no need to prepare for further examination).

Why Tenby Schools Setia Eco Park and Asia Pacific Schools?

➤ Get a university experience with the reassurance of a school campus knowing your child will be supported to achieve the best possible results and future pathways to Higher Education and careersuccess.

A Place for Amazing Learning

- As part of the International Schools Partnership (ISP), we benefit from the resources, opportunities and rich educational experience of a group with 50 schools in 15 countries worldwide.

Schools of Choice in the Klang Valley

- Convenient access from Klang, Shah Alam and Petaling Jaya.
- Easily accessible through NKVE Highway.
- New and convenient housing developments within the surrounding area.

Hear from our Alumni

Know what you want and go for it

"I chose Chemistry as it had ties with Physics and opened up the option for Chemical Engineering.

The three subjects I chose gave me a basic but crucial knowledge in Science, which laid the groundwork for my university studies. An additional bonus was that they shared many related concepts and skills, so studying them became easier and learning became more natural.

The university syllabus seems to merge seamlessly from my previous studies at Tenby and runs further down the road with it. This helped me make the transition into university studies more smoothly."

Andrew Wong

Technical University Eindhoven Automotive - (Electrical) Engineering

Take time to explore

"I had the time to try my hand at some topics that interested me. Eventually I picked the one that I liked best. This led me to applying to Monash University for a course in Fine Art.

It was still tough but I thoroughly enjoyed my time studying at Tenby. It really was worth spending that time to prepare and improve myself before entering university."

Andrea Hare

World Leading Career Information Advice & Guidance

At ISP we believe in preparing students for a successful career. In addition to world class University Advice and guidance this includes:

- » One on One University counselling
- » University Application advice and guidance
- » Academic subject talks from Malaysian and global universities on Business, Engineering, IT and Medicine

In the past six months alone, we have worked with the following Universities;

- » RCSI & UCD Malaysia Campus
- » University of Surrey
- » The University of Sheffield
- » University of Exeter
- » The University of New South Wales
- » University of Southampton Malaysia
- » Swinburne University, Sarawak
- » Monash university
- » City university
- » UCSI

We also look to the future career success of our students with:

- » Accredited Leadership qualifications giving students an advantage in their University applications and future careers
- » Industry talks from leading company professionals – both in Malaysia and global multinational corporations
- » Business facing projects completed by students
- » Entrepreneurship education and competitions

Hear from our NCUK Alumni

“NCUK has helped me in a range of ways. From doing English with Academic Purposes (EAP), I was able to hone my English skills which I am eternally grateful for.”

Angelina Long Chia Ling
From Malaysia, studied the NCUK International Foundation Year.
Progressed to the University of Leeds LLB Law

“NCUK is a magnificent pathway that lays the essential foundations for prospective undergraduates.”

Yan Kang Chai

ISP Advantage

The International Schools Partnership (ISP) is a growing group of committed colleagues in schools around the world, all of which aim to be the school of choice in their local area. Learning is at the heart of everything we do for our students, colleagues and parents. We are committed to getting better, all the time. ISP was founded by an experienced team who have worked together over many years. Our growing group of private schools located in the USA, Canada, Spain, Switzerland, Italy, the UK, Chile, Colombia, Peru, Ecuador, Mexico, Costa Rica, the United Arab Emirates, Qatar and Malaysia educate children and students from 2–18 years of age. We have now expanded to 50 schools delivering multiple curricula and building on local brands and reputations with around 45,000 students and 7,000 staff located across the globe.

International Learning Opportunities at ISP

At the International Schools Partnership (ISP), learning is at the heart of everything we do, and we want to continually provide the best learning opportunities possible for our students and their families. We believe that as part of our students' learning journey it is important that they have the chance to experience learning outside of the classroom and connect with other ISP students. As a global group of schools our students benefit from being part of a wider international community, which provides many additional learning and cultural opportunities.
