The fact the world has various travel restrictions in place doesn't stop our students meeting other students from other countries!

The ISP Virtual Buddy Exchange Programme (VBEP) gives our students the opportunity to have a round the-world online journey, reach out beyond their own school community and meet other ISP students from all over the world virtually.

This six-week programme runs twice a year. Through supervised weekly video calls of 45 minutes students practise their language, presentation, and personal skills in English.
